

# 'THE BROOKE'

BRUCE, ACT

- Landscape Architectural Design
- Vertical Planting
- Urban Design
- Communal Garden Space

**SPACELAB** was engaged by Maxon Group to provide landscape architecture services for their apartment development located in Bruce.

**SPACELAB** worked in collaboration with the architect to integrate the landscape and the built form to create a central communal garden flanked by commercially adaptable apartments.

**SPACELAB** was faced with several challenges including site permeability, tree canopy coverage but relished the opportunity to provide a unique landscape within the high-density Bruce development area.
