

# STS PETER AND PAUL'S OLD CATHEDRAL

GOULBURN, NSW

- Concept Design
- Master planning
- Placemaking
- Landscape design
- Precinct Planning

The restoration and redevelopment of the precinct of Sts Peter and Paul's Old Cathedral is of great cultural and economic significance to Goulburn, regional NSW and to Australia as a whole.

The plans for the Cathedral and the precinct go beyond preserving a grand and iconic landmark with the heritage and cultural value of the precinct being enhanced through the creation of Australia's sixth Basilica.

The precinct design will acknowledge the Cathedral's heritage and place in the city of Goulburn with plans to repurpose the former St Brigid's school as a heritage centre and the creation of contemplative gardens dedicated to Australia's first saint, Saint Mary MacKillop.

*"Spacelab's approach has acknowledged the cultural significance and opportunities of the site with thoughtfulness." - Father Joshy, Sts Peter and Paul's Old Cathedral*
