- Detailed Design
- Multi-Unit Residential
- Construction Documentation

SPACELAB was engaged by Geocon to provide landscape services to their Gungahlin development – Infinity Towers. The concept for Infinity Towers was to create a luxury living environment for residents and their guests through a combination of quality design, amenities and landscaping.

SPACELAB's design offers a landscaped 2500m² Sky Park on Level 6 that includes a 25m infinity pool, customised landscape elements that ensure an accessible path of travel throughout the site and resort-style amenities that residents can entertain, relax in and be part of a community.
