Brendon is a Registered Landscape Architect and Urban Designer with over 16 years of experience in the design and construction industry.

Brendon has spent a considerable amount of his career working on public realm projects, including one of Canberra's largest infrastructure projects, the Enlarged Cotter Dam. Brendon has carried out many projects in the ACT for the ACT Government, Suburban Land Agency, National Capital Authority, and private developers, and has extensive experience on urban renewal projects.

Brendon has extensive experience on greenfield and education projects, having worked on numerous land estates and schools in the ACT and surrounding NSW region, leading teams from concept through to construction. Brendon was also the design manager and lead landscape architect on several high-profile projects, including The Grounds, Braddon (\$120M project value), and Kingsborough (\$180M project value).

Brendon's infrastructure experience and high-quality construction detailing provide his projects with a wealth of knowledge. Brendon has a positive relationship with the landscape members of TCCS, with an excellent track record of successful handovers.

Brendon is technically precise and familiar with Australian Design Standard and ACT Government reference documents. Brendon is proficient in various digital design packages, including AutoCAD and the Adobe Design Suite (Photoshop, Illustrator, and InDesign), as well as traditional drafting and design in various media. Brendon is experienced in working in a multi-disciplinary working environment and has a well-honed ability to "just get stuff done".
