URBAN DESIGNER

## Qualifications:

Bachelor of the Built Environment (Architecture)  
Currently Studying - Masters of Architecture

## Affiliations:

Property Council of Australia  
Planning Institute of Australia

## Contact:

sam@spacelab.net.au | 02 6262 6363

Sam is an architectural graduate, specialising in Urban Design and the way people inhabit spaces. He has worked on an array of projects between small scale renovations to extensive suburban masterplans.

Having completed an Undergraduate in Architecture and currently studying his Masters, Sam brings theory and design learning to his working projects.

While at SPACELAB, Sam uses his design skills and knowledge of BIM and visualisation programs such as Lumion and Revit to explore new design options and communicate them with clients and stakeholders. Sam works alongside the rest of the team to see designs from concept sketch and feasibility, all the way to handovers and occupancy. Sam also engages heavily with our landscape design team to integrate natural elements into our urban design projects.

While not at work, Sam enjoys cooking, has just got into smoking meats (participating in an ongoing office competition), taking his motorbike out for a spin, experimenting with his 3D Printers, and artistic activities such as painting and cinema.
